Paragraph Instruction

Read the following poem carefully and answer the MCQs given below:

The Gift of Kindness
In a world where shadows often play,
A simple smile can light the way.
With words of kindness, hearts will mend,
A helping hand can be a friend.

When you see someone feeling blue,
A little care can help them through.
For in giving love, we grow more bright,
Together, we can spark the light.

Question No.35 : Read the following paragraph carefully and answer the questions given below. Use correct grammar, punctuation and spelling. Marks (10)

Birds are fascinating creatures that come in all shapes, sizes, and colors. They have feathers covering their bodies, which help them fly. They have different sizes and can be as small as 2 inches and as big as 2.75 meters. For instance, bee hummingbird is the smallest bird and ostrich is the largest bird. There are different types of birds that exist which vary in characteristics. For instance, there are penguins that cannot fly. Further, there are birds that are known for their intelligence like Parrot and Corvidae. Some birds, like eagles and hawks, are predators, while others, like sparrows and robins, eat seeds and insects. Birds build nests to lay eggs and raise their young. They communicate through chirps, songs, and calls. Many birds migrate to warmer climates during winter, while others stay year-round. Watching birds can be a peaceful and enjoyable hobby, whether in a backyard or a park. Overall, birds contribute to the beauty and diversity of our natural world. Due to hunting, many birds are getting extinct. Thus, we all must take proper measures to help the birds live and save them from extinction.

questions: 1. Which birds cannot fly? (2) 2. How do birds communicate? (2) 3. Which birds eat seeds and insects? (2) 4. Which birds are known for their intelligence? (2) 5. Write names of the smallest and the largest bird. (2)

2. Accurately summarize 1/3rd of the given text. Marks (7)

(Instructions: • Your summary must describe all the key ideas from the paragraph. • DO NOT include opinions or personal information in the summary. • Use correct grammar, punctuation, and spelling.)

Dengue Day is observed annually to highlight the critical issue of dengue fever, a disease that affects millions of people worldwide, especially in tropical and subtropical regions. The day serves as a reminder of the need for continuous vigilance in preventing the spread of the virus. Dengue fever is transmitted by the Aedes mosquito, particularly the Aedes aegypti species, which breeds in stagnant water. On Dengue Day, local governments, health organizations, and community groups work together to educate the public about simple yet effective measures to reduce mosquito breeding, such as eliminating water-filled containers, using insect repellent, and sleeping under mosquito nets. Additionally, health professionals use this day to provide information about the symptoms of dengue, such as high fever, severe headaches, joint pain, and rashes. Early detection and treatment are crucial for reducing the risk of complications, such as
